

The burden that this requirement puts on a small market radio station is unreasonable in my opinion. Because we live and work in a small community we are always extremely careful about the content of the product that we put on the air. We recognize our responsibility to the community as a whole and particularly to our listeners and why they choose to listen to our station. We have never received complaints about crossing the lines of decency and our entire staff recognizes our role and obligation to the community. We should not have to go to the expense and effort to prove that we are in compliance because someone somewhere stepped over the line. We have earned the right to be considered innocent and shouldn't be burdened with having to prove that innocent on a daily basis by retaining recordings of our programming.

Thank you,
Blaine Kimball
